

Clean Power Estimator

This easy-to-use estimator will help you determine the value of investing in a solar photovoltaic (PV) or small wind electric generating system for your California home or business.

Its simple! Just enter your zip code and personalized information. To protect your privacy, the information resides only on your computer.

It can calculate the costs and benefits of your solar or small wind system, including:

- Reducing your electricity bill
- Increasing your tax savings
- Estimating your loan payment
- Maximizing your cash flow
- Reducing carbon dioxide (CO₂) emissions
- And more!

Check out your savings now!

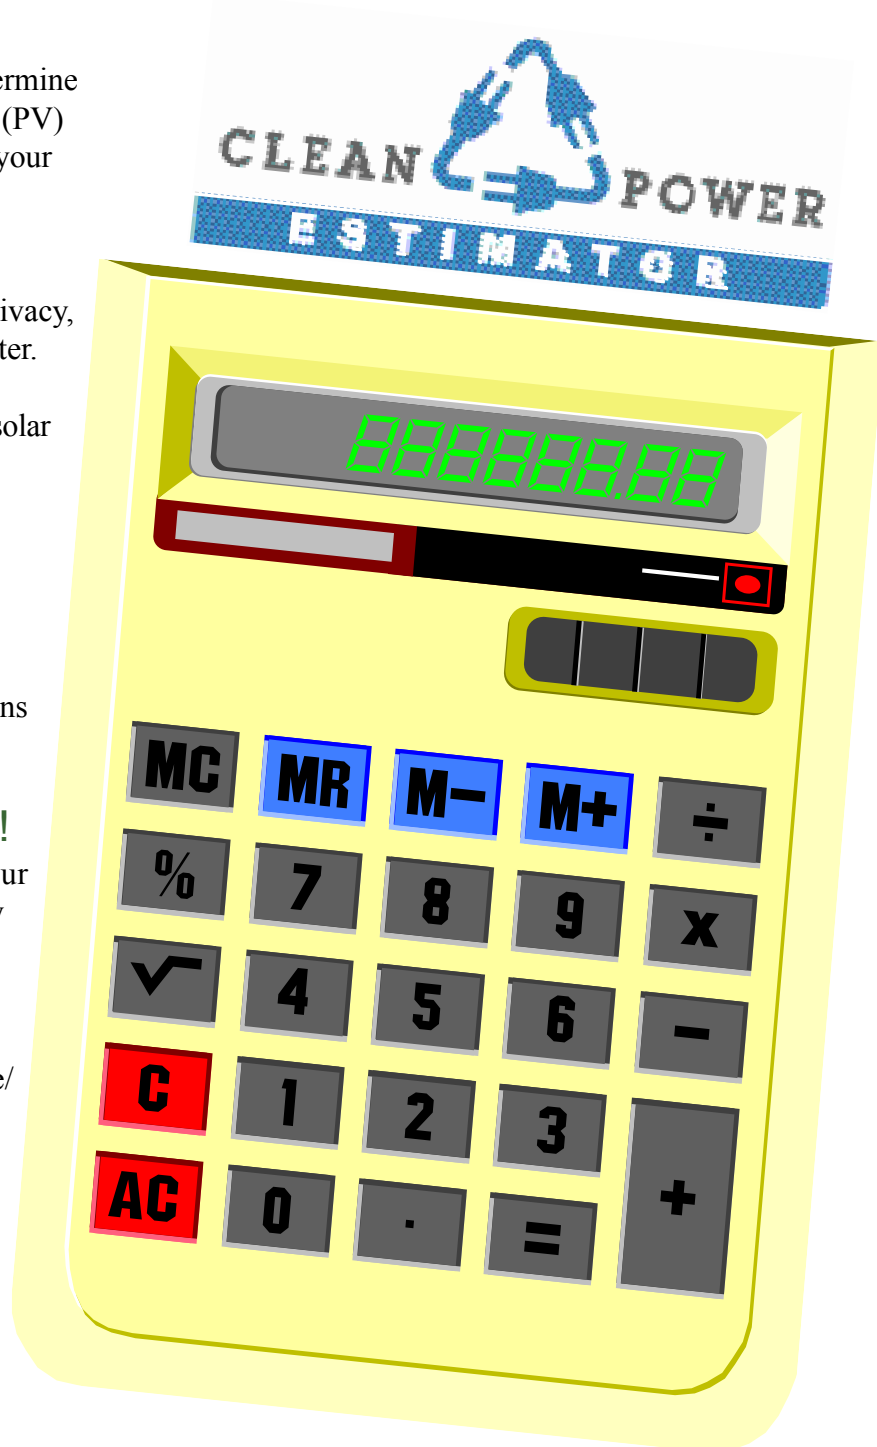

Use the Clean Power **Estimator** on our website to find out how you can save energy and the environment.
